

EXECUTIVE COMMITTEE AND ADVISORY COUNCIL  
MEETINGS

Several meetings of the Executive Committee and Advisory Council were held during the Conference. Discussed were:

- the 16th ITTC procedures;
- the 16th ITTC Executive Committee Recommendations;
- date and place of the 17th ITTC;
- the 17th ITTC Executive and Technical Committees' membership.

The 16th ITTC Executive Committee Recommendations were, as previously agreed, compiled on the basis of the Advisory Council's discussions held in 1980-81 on the future scope and aims of the ITTC, on possible rearranging geographical areas, on procedure of selecting the Technical Committees' members, on the ITTC Rules, and on the ITTC Newsletter publication.

Furthermore, it was proposed to add a recommendation concerning a change of the status of High-speed Vessel Panel to High-speed Vessel Committee and a recommendation endorsing mutual contacts between the different Committees to avoid overlap of their activities.

The Executive Committee and Advisory Council accepted with gratitude the

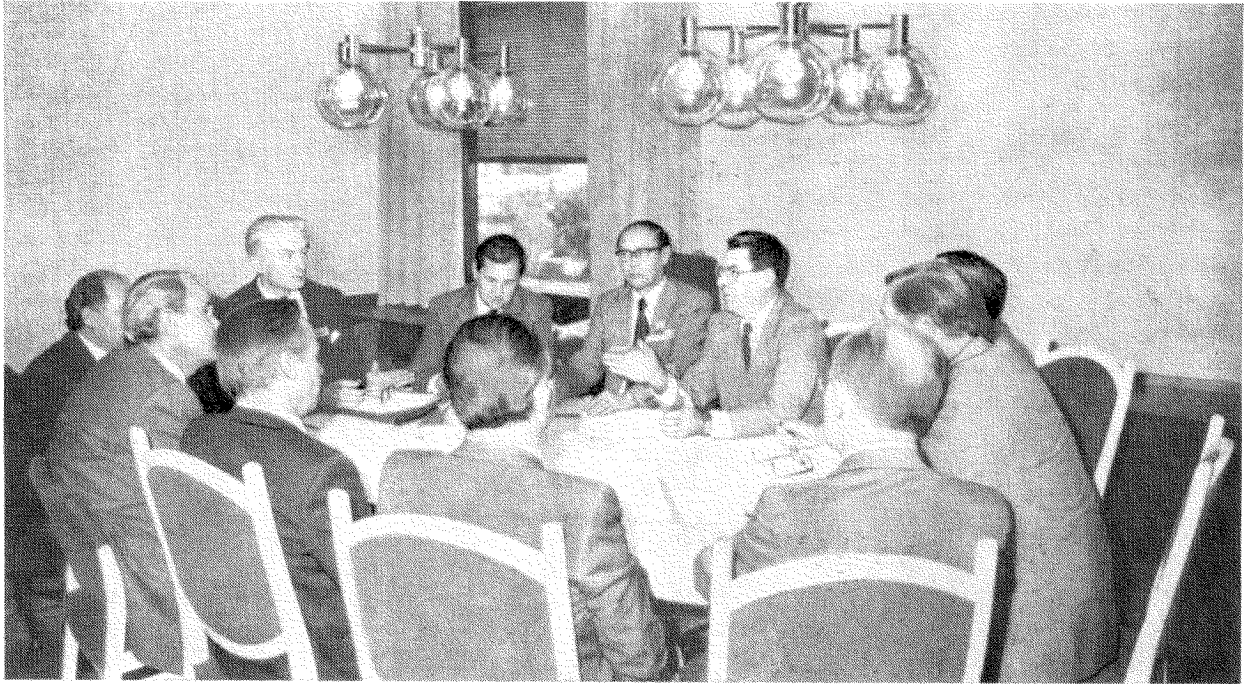

proposal of the Swedish colleagues to hold the next 17th ITTC in Göteborg, in 1984.

The 17th ITTC Executive Committee was composed following the suggestions of the geographical areas. The 17th ITTC Technical Committees' membership was carefully discussed by the Executive Committee and Advisory Council together with the Chairmen of the current Technical Committees.

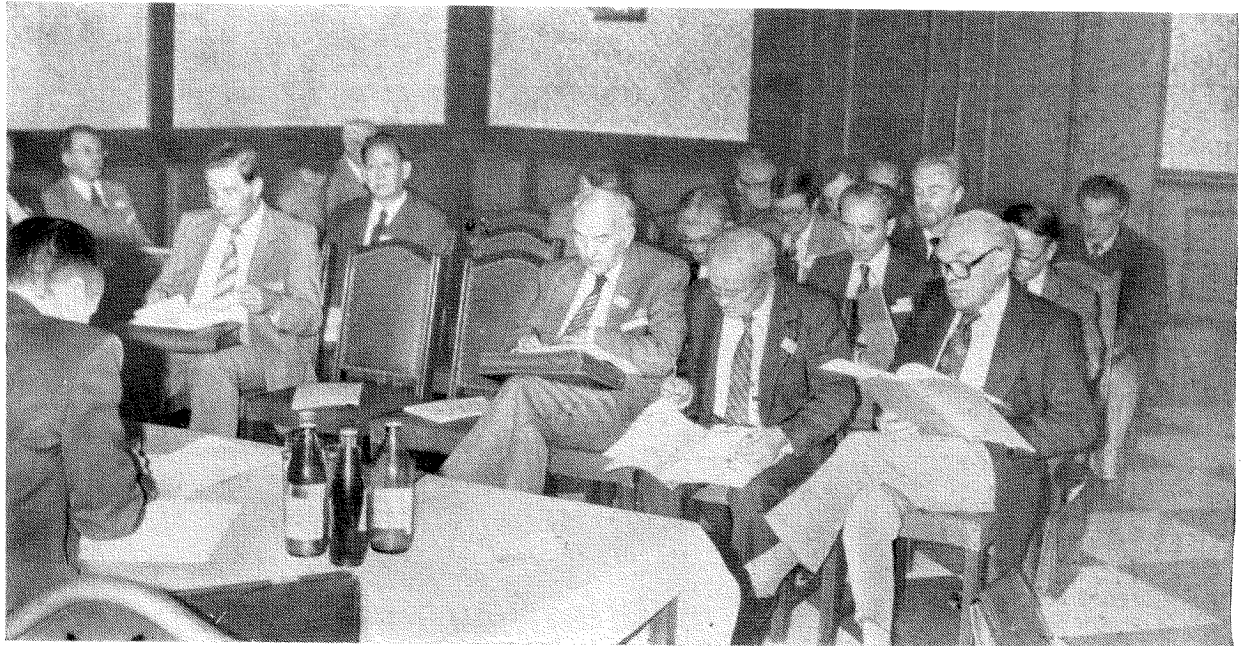

Decisions on the above mentioned items were, after having been agreed by the Executive Committee and Advisory Council, presented to the Conference. At the final General Session these decisions were approved.

The Executive Committee has also considered the applications for ITTC and ITTC Advisory Council membership. It was agreed to discuss the matter at the first meeting of the 17th ITTC Executive Committee in 1982.

The Advisory Council re-elected Prof. Dr. J.D. van Manen as Chairman, elected Dr. B.Morgan as Vice Chairman and re-elected Dr.M.W.C. Oosterveld as Secretary for the period of 1981 - 1984.
