

SESSION ON SYMBOLS AND TERMINOLOGY**Chairman: Prof. H. Kato****Symbols and Terminology Group Memberships: B. Johnson (Chairman) – C. Podenzana–Bonvino (Secretary) – D. Clarke – N. Matsumoto – M. Schmiechen****Discussion of the Report and the Draft Recommendations of the Symbols and Terminology Group. (Cf Proceedings, Volume 1, p. 37–45.)****I. DISCUSSIONS****ST–1****M. GU**
CSSRC, Wuxi, China

I certainly appreciate the voluminous and valuable piece of work done by the SaT group. With respect to the recommendation to the next

SaT group work, which suggests to plan a revision of the ITTC Dictionary of Ship Hydrodynamics and of official translations into principal languages of ITTC people, I would like to say on behalf of CTTC, that we would fully support the work in the translation into Chinese language as we did before.

II. REPLY BY THE SYMBOLS AND TERMINOLOGY GROUP

The first draft of the new Standard Symbols and Terminology List, 1987, was prepared by Prof. Podenzana–Bonvino and printed and bound for the conference by the Society of Naval Architects of Japan. A more recent update of work in progress

was also distributed to the members of technical committees at the conference. The proposed timetable for publishing the new Standard Symbols and Terminology List is contained in the new Recommendations in Volume II of the Proceedings.
