

GROUP DISCUSSIONS

Three Sessions of Group Discussions took place during the Conference. The topics were decided during discussions at meetings of the Executive Committee, which were of interest to the Member Organizations. One organizer was selected for each Session, and he arranged the program, inviting specialists as invited speakers and panelists. They also served as Session Chairmen during the Conference. The topics selected were the following:

- GROUP DISCUSSION 1: NEW FACILITIES AND NEW TESTING AND ANALYSIS METHODS**

- GROUP DISCUSSION 2: FULL-SCALE MEASUREMENTS**

- GROUP DISCUSSION 3: MANOEUVRING SIMULATION**
